

LIFESTYLE INCOME STRATEGIES
PROVIDING INCOME STRATEGIES FOR YOUR LIFESTYLE

CREATE EXCITEMENT WITHIN YOUR MAJOR DONOR BASE

KEY ELEMENTS

AN OPPORTUNITY TO APPROACH MAJOR DONORS AND NOT ASK THEM FOR A DIME. DONORS CAN CREATE LIFETIME AND POST LIFE DONATIONS WITHOUT AFFECTING CURRENT GIFTING

The charity is no longer in the awkward position of waiting for a Donor to pass in order to collect designated gifts or endowment funds. This strategy creates an income stream during the life of the donor and a lump sum donation from their post life Estate.

Our firm partners with highly respected major financial institutions to create individual programs for Donors. It has a 50+ history of completely ethical and honorable proven methods of raising millions of dollars in endowments or other future funding needs. These strategies are truly a win-win for every party utilizing this approach to gifting.

HOSPITAL AND MEDICAL CLINICS

- The funds raised through this strategy can be used for any purpose deemed appropriate by the governing body. Some examples include:
- Create endowments for physicians and for advances in medicine
- Attract the top talent in the medical field and top specialists
- Pay medical staff salaries, signing bonuses, and recruitment expenses
- Provide a superb environment for excellence in patient care
- Meet ongoing expenses, expansions, invest in new technology
- Promotes prestige & provides financial strength to the organization and the members

POTENTIAL DONOR BENEFITS

This program can be used to create an opportunity for Donors or a group of Donors to be recognized in the local community or even on a national platform. Most Donors enjoy being acknowledged for their contributions and what better way than to create or maintain a project solely based on the ongoing gifts from a major Donor(s).

Using this approach affords the organization the ability to name the project after the Donor or the Donor's designated fund name and create an eternal legacy. Others may be inspired by actions and donations of key Donors to create their own legacy as well.
