

Opportunities from Lifestyle Income Strategies

WHO WE ARE

Collins Asset Group LLC, was founded by Walt Collins in 2011, and is engaged in the consumer and commercial accounts receivables management industry. The Collins management team has more than ninety years of combined industry leadership experience and Collins leverages this experience and the science of analytics to access and liquidate portfolios and accounts.

STRATEGY

This is a six-year opportunity that provides a fixed annual interest rate of seven percent of funds committed under a Dependent Agreement. 1.75% interest is paid quarterly in advance after the first year. Years two through five pay quarterly. 7% interest year one accumulates and year six 7% interest accumulate to pay at maturity.

EXAMPLE

This is an example on a \$100,000 Dependent Agreement business listing. The distribution due on the Dependent Agreement under such an allocation would be:

Year One - \$100,000 @ 7% = \$7,000 accumulated.

Years Two, Three, Four and Five distribute 1.75% quarterly distributions = \$1,750.00 per quarter.

Year Six - \$100,000 @ 7% = \$7,000 accumulated.

Maturity distribution - Years One and Six accumulated \$14,000 plus \$100,000 principal = Total \$114,000

SIX-YEAR INCOME

FEATURES

- ✦ Uncorrelated to Stock Market
